1. Main text

Here introduce the paper, double space, with the same font size as the rest of the paper. The total number of pages is limited to 5 pages. The paragraphs continue from here and are only separated by headings, subheadings, images and formulae. The section headings are arranged by numbers, alphabet or symbols. Here follows further instructions for authors.

1.1. Structure

Files should be in MS Word format only and should be formatted for direct printing. Figures and tables should be embedded and not supplied separately. Please make sure that you use as much as possible normal fonts in your documents. Special fonts, such as fonts used in the Far East (Japanese, Chinese, Korean, etc.) may cause problems during processing. To avoid unnecessary errors you are strongly advised to use the 'spellchecker' function of MS Word.

1.2. Tables

All tables should be numbered with Arabic numerals. Headings should be placed above tables, left justified. Leave one line space between the heading and the table. Only horizontal lines should be used within a table, to distinguish the column headings from the body of the table, and immediately above and below the table. Tables must be embedded into the text and not supplied separately. Below is an example which authors may find useful.
