## FOREWORD

*Bismillahirrahmanirrahim*

Community service is one of the main tasks of a lecturer. On this occasion we were given an opportunity to carry out community service activities held by the Faculty of Science and Technology, State Islamic University Maulana Malik Ibrahim Malang in the scheme of the Community Development Program with the title "Socialization of Appropriate Technology" and subtitles "Mathematics Learning Based on Technology".

Alhamdulillah, the process of service activities can be carried out well. Our thanks go to:

1. Prof. Dr. M. Zainuddin, MA as the Chancellor of UIN Maliki Malang who provided support as well as the direction in carrying out Community Service.
2. Dr. Agus Maimun, M.Pd. as the chairman of LP2M UIN Maliki Malang who has given us the opportunity and also guidance regarding community service activities.
3. Faculty of Science and Technology UIN Maulana Malik Ibrahim Malang which has made Community Development Program activities.
4. Mathematics Study Program which has accommodated and facilitated community service schemes.
5. The programme leader, lecturers, and students of School of Applied Sciences and Mathematics as service partners.
6. As well as the entire team that is ready to serve both the lecturers and students involved.

Finally, we hope that our community service activities can be sustainable and have an impact on partners and the Faculty of Science and Technology of UIN Maulana Malik Ibrahim Malang.

Malang, August 27, 2024

Writer Team

# CHAPTER I

## PRELIMINARY

### 1.1. Issues and Focus of Services

Technology can be said as a whole means to provide goods needed for the survival and comfort of human life. Meanwhile, appropriate technology is a technology designed for a particular society so that it can be adapted to the environmental, ethical, cultural, social, political, and economic aspects of the community concerned.

Mathematics is one of the old pieces of knowledge. The systematic study of mathematics in its own right began in Ancient Greece between 600 and 300 BC. Even so, mathematics continues to develop over time. Meanwhile, mathematics learning is often monotonous and boring. Whereas we can use technology to learn mathematics pleasantly. One of which is using the "Sage Math" application and the "Aryafilan" website as learning media. Sage Math is one of the open source mathematical software which we can access it freely. So does the "Aryafilan" website which we will use as learning media. But not many people know and use this application and website as a learning media.

At this community development, the Mathematics Study Program UIN Maulana Malik Ibrahim Malang will hold training on the use of the "Sage Math" application and "Aryafilan" website as a learning tool for mathematics. This training will be aimed at students of The Indonesian School Jeddah. We hope the students there will find it easier to learn mathematics.

### 1.2. Reasons for Choosing Accompanied Subjects

The assisted subjects targeted in this training are students of the School of Applied Sciences and Mathematics, Universiti Teknologi Brunei. The selection of the target of this activity is based on the following problems:

1. The rapid development of technology.
2. Mathematics learning media are often monotonous and boring.
3. Sage Math and the "Aryafilan" website are two learning media that are accessed freely, yet not many people know and use it.

### 1.3. Current Condition of Assisted Subjects

The Indonesian School Jeddah was established on January 1, 1964. Initially, Sekolah Indonesia Jeddah was just a kindergarten managed by Dharma Wanita unit of KBRI (before it became KJRI) Jeddah with its first name, Taman Kanak-Kanak "Trikora". It was named "Trikora" at the time because the first meeting of the school coincided with December 19, 1963 when the Tri Komando Rakyat statement to reclaim West Irian which was still in the grip of the colonizers. The establishment of the Trikora school was approved by the Indonesian Ambassador at the time, K.H. Mohammad Ilyas. The figures who spearheaded the establishment of the Trikora school include:

1. Mr. Lilahi Grahana Sidharta (Chief of Information)
2. Mr. Zainal Arifin Al-Habsyi (Religious Arase)
3. Mr. Emzita (Information Officer)

These three people are often nicknamed the three friends.

The main purpose of establishing the Trikora school was:

1. educate the nation by providing knowledge to the younger generation as early as possible.
2. uniting Indonesian citizens through an educational forum in Jeddah, Saudi Arabia.

Two months after the Trikora school was established, on March 1, 1964, the elementary school level was officially opened. As a new school, there were many difficulties that had to be overcome. To resolve the difficulties and perfect the school organization, on September 1, 1967, the Chief Representative of the Republic of Indonesia in Jeddah formed a commission. The commission was named the Jeddah Indonesian School Commission. The commission had the main task of fostering Indonesian schools in Jeddah and seeking recognition from the Indonesian Ministry of Education and Culture as well as preparing for the junior high school level.

To refine the school's vision and mission, Sekolah Trikora was transformed into Sekolah Indonesia Pancasila (SIP). On January 6, 1968, the School Commission succeeded in opening the Junior High School (SMP) level and at that time the decision of the Minister of Education and Culture of the Republic of Indonesia number 0112/1968 concerning the official recognition of the elementary and junior high school levels at Sekolah Indonesia Pancasila in Jeddah, as a school equal to schools in the country.

On February 10, 1971, Sekolah Indonesia Pancasila (SIP) successfully opened the Senior High School (SMA) level. Along with the complete level of education at Sekolah Indonesia Pancasila (SIP), the school was able to graduate its students for the first time. At that time, the Senior High School level owned by Sekolah Indonesia Pancasila (SIP) was officially recognized by the Minister of Education and Culture's decree number 0106/O/1980. When the government centered in Jeddah moved to the city of Riyadh, representatives of foreign countries also moved, including the Embassy of the Republic of Indonesia (KBRI) Jeddah, so that the KBRI Jeddah changed its name to the Consulate General of the Republic of Indonesia (KJRI) Jeddah. Because of this, Sekolah Indonesia Pancasila (SIP) changed its name to Sekolah Indonesia Jeddah (SIJ) until now.

#### **1.4. Expected Assistance Conditions (Outputs, Outcomes, Benefits, Impact)**

As for the conditions that are expected with the holding of this CDP activity, the students at Sekolah Indonesia Jeddah (SIJ) can learn mathematics easily, interestingly, and usefully.

## **CHAPTER II**

### **COMMUNITY DEVELOPMENT PROGRAM IMPLEMENTATION**

#### **2.1. Activity Design**

The form of this service activity is to provide training about mathematics learning media for students, especially for students of Sekolah Indonesia Jeddah (SIJ). This training will be conducted online using the zoom video call application.

#### **2.2. Target**

The target of this training is students, especially students of Sekolah Indonesia Jeddah (SIJ).

#### **2.3. Expected Results (Outcomes)**

With the implementation of technology-based mathematics learning training and the integration of Islamic values, we hope the students at Sekolah Indonesia Jeddah (SIJ) can learn mathematics easily, interestingly, and usefully.

#### **2.4. Activity Process Description**

There are 3 stages of this training, i.e. initial discussion with the university leader, training preparation, and training implementation. Here is the illustration of each stage.

##### **a. Initial Discussion**

This service activity is carried out in several stages, starting with a survey and designing training activities which are also discussed with the school principal, Mr. Sutikno, M.Pd.

We plan to carry out the training on Thursday, August 22, 2024. From this discussion agreed on the following points:

- Because it is impossible for us to go to Saudi Arabia, the training will be conducted online via the zoom meeting application.
- We will give the training from Mathematics Study Program, Science and Technology Faculty, UIN Maulana Malik Ibrahim Malang. Meanwhile, Sekolah Indonesia Jeddah (SIJ)'s students will join online from anywhere, most likely from their school.
- The target of this training is Sekolah Indonesia Jeddah (SIJ)'s students.
- The training topics are "Aryafilan" website and "Sage Math" application.

##### **b. Training Preparation**

Even though the training is conducted online, we should prepare several things, like the computer, LCD projector, Wi-Fi, zoom account, and of course the consumption since the committee and the presenter have gathered in the Mathematics Study Program.

##### **c. Training Implementation**

The training is scheduled for Thursday, August 22, 2024 from 1 PM WIB (Indonesian Time) or 9 AM KSA (Saudi Arabia Time) to 02.40 PM WIB (Indonesian Time) or 10.40 AM KSA (Saudi Arabia Time). The rundown of the workshop is written below.

<b>Activity</b>	<b>KSA</b>	<b>Person In Charge</b>
Opening	09.00 – 09.05	Master of Ceremony
Welcome Speech 1	09.05 – 09.15	Chief of Math. Study Program
Welcome Speech 2	09.15 – 09.25	Principal of Sekolah Indonesia Jeddah (SIJ)
Presentation	09.25 – 10.10	Mr. M. Nafi Jauhari, M.Si.
Question and Answer	10.10 – 10.35	Speakers
Closing	10.35 – 10.40	Master of Ceremony

There is only one material that will be presented, i.e. “Learning Mathematics using Sage Math and ‘Aryafilan’ Website”, which is presented by Mr. M. Nafi Jauhari, M.Si.

## **2.5. Success Achieved According to Expected Results**

“Learning Mathematics using Sage Math and ‘Aryafilan’ Website” training is an enrichment given to SIR’s students. Through this training, we hope students can learn mathematics easier since both Sage Math and the “Aryafilan” website provide many free online mathematics learning media.

## **2.6. Program Sustainability**

As an evaluation of “Learning Mathematics using Sage Math and ‘Aryafilan’ Website” training, we asked for feedback from training participants via a google form. These are the question list.

1. What is your name?
2. What institution do you come from?
3. What semester are you?
4. How was the training? Is it useful?
5. After attending the training, can you create your own online-based learning media?
6. If Mathematics Study Program, UIN Maulana Malik Ibrahim Malang, will hold another training, what training topics do you expect?

Universitas Islam Negeri Maulana Malik Ibrahim Malang

## 2.7. Recommendation

With the development of technology, online-based learning media will be more advanced and become sophisticated. Therefore, it is necessary to provide assistance to Sekolah Indonesia Jeddah (SIJ)'s students in making learning media. We may also give training about another application or programming language related to mathematics, such as phyton, R, or anything else.

## 2.8. Financial Statement

<b>FINANCIAL STATEMENT COMMUNITY DEVELOPMENT PROGRAM MATHEMATICS LEARNING BASED ON TECHNOLOGY</b>					
No.	Activity	Volume	Unit	Price (per unit)	Total
1	Buy zoom pro	1	unit	Rp700.000	Rp700.000

<b>Total</b>					Rp3.500.000

## ATTACHMENT

### I. Literature / Material Study

Media literacy consists of practices that enable people to access, critically evaluate, and create or manipulate media. Media literacy is not limited to one medium (Potter, 2010) and is understood as a set of competencies that are essential for work, life, and citizenship (Hobbs, 2010). Media literacy education is a process used to improve media literacy competence and is intended to increase awareness of the influence of media and create active attitudes towards media consumption and creation (Hobbs, 2011). Media literacy education is part of the curriculum in the United States and several European Union countries, and an interdisciplinary global community of media scholars and educators is engaged in knowledge sharing through scientific and professional journals and national membership associations (Šupšáková, 2016).

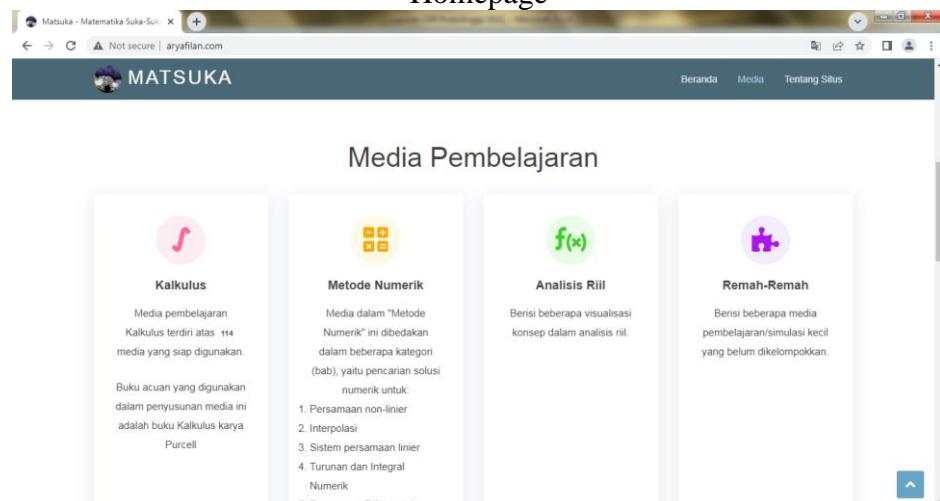

Education for media literacy often uses an inquiry-based pedagogic model that encourages people to ask questions about what they watch, hear, and read. Media literacy is moving beyond traditional non-printed texts and turning to more contemporary sources. Some examples of media literacy include, but are not limited to television, video games, photos, and audio messages. Media literacy education provides tools to help people develop receptive media skills to critically analyze messages, offers students opportunities to broaden their experiences of media, and helps them develop generative media skills to enhance creative skills in creating their own media messages (Bachmair & Bazalgette, 2007; Van Dijck & Poell, 2015). Critical analysis can include identifying authors, goals, and viewpoints, examining construction techniques and genres, examining media representation patterns, and detecting propaganda, censorship, and bias in news programming and public affairs (and why). Media literacy education can explore how structural features such as media ownership, or its funding model (Van Dijck & Poell, 2015) affect the information presented.

As defined by The Core Principles of Media Literacy Education, "the goal of media literacy education is to help individuals of all ages develop the habits of inquiry and expressive skills they need to become critical thinkers, effective communicators, and active citizens in today's world. this."(Parnis & Petocz, 2016). Education about media literacy can be started in early childhood by developing a Pedagogy around more critical thinking and deeper analysis and questions about concepts and texts (Share, 2009). As students age and enter adulthood, the use of learning media literacy will have an impact on identifying ethical and technical standards in teaching and learning media and understanding how the media binds to their cognitive, social, and emotional needs (Friesem, 2019).

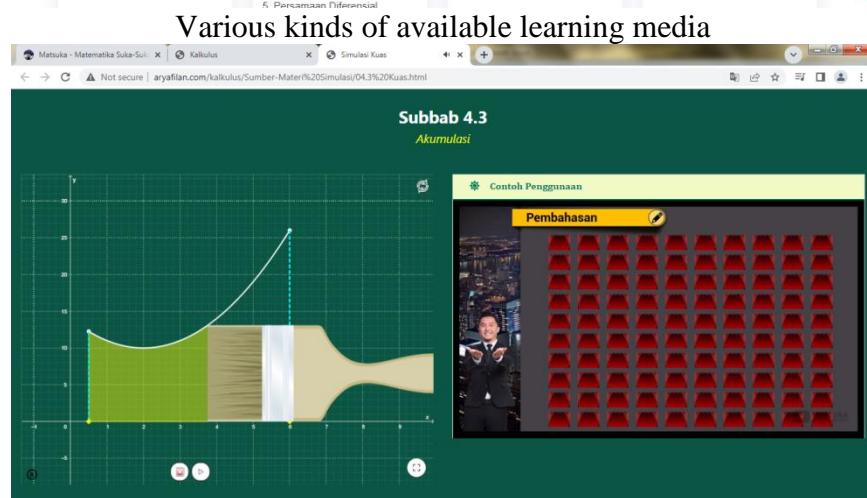

In general, there is a website that is used as a model in online-based learning media materials, namely <http://www.aryafilan.com/>. This website contains a variety of learning media for mathematics, including calculus, numerical methods, real analysis, and other materials. The average learning media contained on the website is in the form of simulations of materials that are quite abstract in the real of mathematics, such as limit and integral material. Here is a view of the website.

Meanwhile, Sage Math (previously Sage or SAGE, "System for Algebra and Geometry Experimentation") is a computer algebra system (CAS) with features covering many aspects

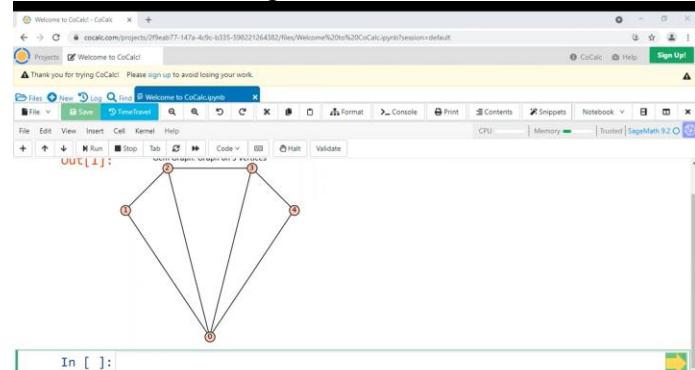

of mathematics, including algebra, combinatorics, graph theory, numerical analysis, number theory, calculus, and statistics.

The first version of Sage Math was released on 24 February 2005 as free and open-source software under the terms of the GNU General Public License version 2, with the initial goals of creating an "open source alternative to Magma, Maple, Mathematica, and MATLAB". The originator and leader of the Sage Math project, William Stein, was a mathematician at the University of Washington. Sage Math uses a syntax resembling Python's, supporting procedural, functional, and object-oriented constructs.

Sage Math training by Mr. M. Nafie Jauhari, M.Si.

**MATSUKA**

**Media Pembelajaran**

**Kalkulus**  
Media pembelajaran Kalkulus terdiri atas 114 media yang siap digunakan. Buku acuan yang digunakan dalam penyusunan media ini adalah buku Kalkulus karya

**Metode Numerik**  
Media dalam "Metode Numerik" ini dibedakan dalam beberapa kategori (bab), yaitu pencarian solusi numerik untuk:

1. Persamaan non-linier
2. Interpolasi
3. Sistem persamaan linier
4. Turunan dan Integral

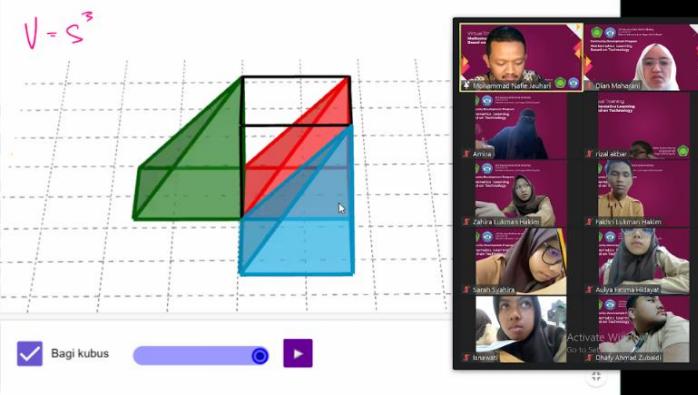

**Analisis Rill**  
Berisi beberapa visualisasi konsep dalam analisis rill.

**Geometri**  
Berisi beberapa visualisasi konsep Geometri

## VII. Activity Letter of Statement (SK Kegiatan)

SURAT KEPUTUSAN DEKAN  
FAKULTAS SAINS DAN TEKNOLOGI  
UNIVERSITAS ISLAM NEGERI MAULANA MALIK IBRAHIM MALANG  
Nomor : 795/FST/3/2024

*Tentang*  
INTERNATIONAL COMMUNITY DEVELOPMENT PROGRAM  
FAKULTAS SAINS DAN TEKNOLOGI  
UNIVERSITAS ISLAM NEGERI MAULANA MALIK IBRAHIM MALANG  
TAHUN ANGGARAN 2024

DEKAN FAKULTAS SAINS DAN TEKNOLOGI  
UNIVERSITAS ISLAM NEGERI MAULANA MALIK IBRAHIM MALANG

Menimbang : a. Bawa guna mendukung kegiatan penyelenggaraan Tri Dharma Perguruan Tinggi, maka perlu diadakan International Community Development Program Fakultas Sains dan Teknologi Tahun Anggaran 2024;  
b. Bawa berdasarkan poin a, maka perlu ditetapkan Tim International Community Development Program Fakultas Sains dan Teknologi Tahun Anggaran 2024;  
c. Bawa mereka yang namanya tersebut dalam lampiran Keputusan ini dipandang telah memenuhi syarat untuk ditetapkan sebagai Peserta International Community Development Program Fakultas Sains dan Teknologi Tahun Anggaran 2024.

Mengingat : 1. Undang-undang No. 20 Tahun 2003 tentang Sistem Pendidikan Nasional (Lembaran Negara Republik Indonesia Tahun 2003 Nomor 78, Tambahan Lembaran Negara Republik Indonesia Nomor 4301);  
2. Undang-Undang Nomor 12 Tahun 2012 tentang Pendidikan Tinggi (Lembaran Negara Republik Indonesia Tahun 2012 Nomor 158, Tambahan Lembaran Negara Republik Indonesia Nomor 5336);  
3. Peraturan Pemerintah Nomor 4 Tahun 2014 Tentang Penyelenggaraan dan Pengelolaan Perguruan Tinggi (Lembaran Negara Republik Indonesia Tahun 2014 Nomor 16, Tambahan Lembaran Negara Republik Indonesia Nomor 5500);  
4. Peraturan Menteri Agama Nomor 2 Tahun 2018 Tentang Organisasi dan Tata Kerja Universitas Islam Negeri Maulana Malik Ibrahim Malang (Berita Negara Republik Indonesia Tahun 2018 Nomor 98);  
5. Peraturan Menteri Agama Republik Indoensia Nomor 40 Tahun 2018 Tentang Perubahan Atas Peraturan Menteri Agama Nomor 15 Tahun 2017 Tentang Statuta Universitas Islam Negeri Maulana Malik Ibrahim Malang (Berita Negara Republik Indonesia Tahun 2018 Nomor 1805);  
6. Peraturan Menteri Keuangan Nomor PMK Nomor 119/PMK.02/2020 tentang Standart Biaya Masuk Tahun Anggaran 2021 (Berita Negara Republik Indonesia Tahun 2020 Nomor 976);  
7. Peraturan Menteri keuangan Nomor 68/KMK.05/2008 tentang Penetapan UIN Malang sebagai Badan Layanan Umum;  
8. Keputusan Menteri Agama Nomor 65 Tahun 2009 tentang Perubahan Universitas Islam negeri (UIN) Malang menjadi Universitas Islam

9. Surat Keputusan Rektor Universitas Islam Negeri Maulana Malik Ibrahim Malang Nomor 799 Tahun 2023 tanggal 14 Februari 2023 tentang Pedoman Pendidikan Universitas Islam Negeri Maulana Malik Ibrahim Malang;
10. Surat Keputusan Rektor Universitas Islam Negeri Maulana Malik Ibrahim Malang Nomor 662 Tahun 2020 tanggal 10 Januari 2020 tentang Integrasi Program Studi Pascasarjana ke Fakultas di Lingkungan Universitas Islam Negeri Maulana Malik Ibrahim Malang;
11. Surat Keputusan Rektor Universitas Islam Negeri Maulana Malik Ibrahim Malang Nomor 663 Tahun 2020 tanggal 10 Januari 2020 tentang Penyelenggaraan Program Fast Track Jenjang Sarjana ke Jenjang Magister Universitas Islam Negeri Maulana Malik Ibrahim Malang.

Memperhatikan : DIPA BLU Petikan Universitas Islam Negeri Maulana Malik Ibrahim Malang Tahun Anggaran 2024 Nomor DIPA-025.04.2.423812/2024 tanggal 28 November 2023.

**MEMUTUSKAN**

Menetapkan : **PESERTA INTERNATIONAL COMMUNITY DEVELOPMENT PROGRAM FAKULTAS SAINS DAN TEKNOLOGI UNIVERSITAS ISLAM NEGERI MAULANA MALIK IBRAHIM MALANG TAHUN ANGGARAN 2023**

Pertama : Mereka yang namanya tersebut dalam lampiran Surat Keputusan ini ditunjuk sebagai Tim International Community Development Program Fakultas Sains dan Teknologi Tahun Anggaran 2024.

Kedua : Keputusan ini berlaku sejak tanggal 15 Maret 2024 s.d 31 Desember 2024 dengan ketentuan apabila dikemudian hari terdapat kekeliruan dalam penetapannya akan diadakan perbaikan sebagaimana mestinya.

Ditetapkan di Malang  
Pada tanggal 15 Maret 2024

**Tembusan disampaikan kepada :**

1. Yth. Para Wakil Dekan;
2. Yth. Para Ketua Program Studi;
3. Yth. Kabag. TU;
4. Yang bersangkutan;
5. Arsip.

Lampiran Surat Keputusan Dekan Fakultas Sains dan Teknologi

Universitas Islam Negeri Maulana Malik Ibrahim Malang
